NCHANGA SMELTER RANKED 2ND IN THE WORLD FOR ENVIRONMENTAL PERFORMANCE

Konkola Copper Mines Vedanta Resources, UK

TREE OF GROWTH 2004-2019

BRITISH STANDARDS INSTITUTION'S ISO 14001 CERTIFICATION FOR KONKOLA AND NAMPUNDWE MINES

ENVIRONMENT AND SOCIAL INVESTMENT

Recognising water as a finite resource.

Ensured the highest standard of environmental practices on water recycling. Installation of water lines across KCM plants, which further aided in recycling of process water.

Clean water provided for over 8000+ residents of Chingola through Solar powered boreholes.

Promoted reforestation and enhanced agricultural practices.

Reduced noise pollution through the deployment of the most advanced, environmentally clean technologies.

INVESTMENT OF US\$ 100 MN. COMMITTED TO BRING BEST IN CLASS ESG PRACTICES. HEALTHCARE FOR COVID IMPACTED COMMUNITIES.

REVIVAL OF GO GREEN INITIATIVE

Go Green initiative will aim to restore Chingola and Chililabombwe as the cleanest town in the copperbelt.

Over 2,500 elite Pongamia Pinata trees have been planted in the disused mine dumps to revitalise the barren lands and enhance soil fertility.

We have planted over 80,000 trees across local communities and government-run schools.

Water from the facilities meets World Health Organisation (WHO) standards certified fit for drinking by the Zambia Bureau of Standards (ZABS).

COMMITTED TO ENHANCE GREEN COVER AND HORTICULTURE

Vedanta ranks 2nd in the metals and mining category, Asia Pacific Region in the 2020 global edition of Dow Jones Sustainability Index.
